

## PETOL Valve Wheel Wrench

The PETOL VALVE WHEEL WRENCH was designed for added safety when opening and closing stubborn valves.

The wrench has a patented feature which fits over a spoke of the valve wheel to minimize the chance of the wrench slipping off the wheel when force is being applied.

In addition to this, the base pad has been improved by a deeper, more rounded design for a better fit on the valve wheel rim. This also reduces the chance of the wrench slipping.

Finally, the handle has been designed to provide the worker with a safer, more comfortable gripping area. PETOL Valve Wheel Wrenches are made from aluminium-magnesium and come in three sizes to fit a wide range of valve wheel diameters.

PETOL Valve Wheel Wrench			
ITEM	OVERALL LENGTH (approx.)	OPENING	WEIGHT
VWP1	13-5/8"	1-3/8"	1,02
VWP2	17-5/8"	1-3/4"	1,76
VWP3	25-1/2"	2-1/2"	3,46

Safer, more comfortable grip

Patented spoke strip

Improved base pad design
